

RENEWING THE EARTH

LIVING LAUDATO SI' IN THE YEAR OF IGNATIUS

Ignatius500

Jesuit Conference
Office of Justice and Ecology

This spring the Vatican launched the *Laudato Si'* Action Platform, a plan that invites the global Church on a 7-year journey toward total sustainability. This May also marked the beginning of the Ignatian Year, which commemorates the 500th anniversary of St. Ignatius being hit with a cannonball, causing a profound conversion experience.

Renewing the Earth: Living Laudato Si' in the Year of Ignatius invites you to consider St. Ignatius' conversion, or "cannonball moment," as a model for your own ecological conversion in this historic environmental era that requires a renewal of our spirits and of the earth.

You're invited to join a journey of discernment with other parishes and individuals to bring the *Laudato Si'* Action Platform to life in your community with Ignatian spirituality as a guide. Join as a parish, a creation care team, parish council, or an individual.
