GERMS ALIVE

One of the main tenants of the Scout Law is a Scout is Clean. So this month, we will be learning how to stay clean and keep the germs away! And since we are living at a time when we are being extra cautious about germs, we will be doing this month's adventure entirely by Zoom.

In this adventure, the Wolves will learn the importance of washing their hands, covering their noses when they sneeze, and keeping a clean room. Wolves will also learn what a germ is and the four main types of germs. Wolves will need to have their own materials on hand for our activities. A list of these materials for each week can be found below.

Since we are doing all our meetings virtually this month, there will be some changes. First, our meetings will start at 7:00 PM instead of 6:30 PM since we don't have to worry about getting sunlight. Also, we will have two meetings on consecutive weeks instead of every other week so we don't interfere with any holiday plans. Finally, in an effort to maintain social distancing and unpredictable weather, we will not have an outing this month.

As a reminder, there's no time like the present to start earning some of your required adventures at home. If you have completed the Duty to God Footsteps or the Protecting Your Child from Child Abuse pamphlet, please let me know so I can mark these as completed on scout book. Please see your handbook for the requirements or shoot me an email and I can go over them with you.

As always, please feel free to call, text, or email me with any questions, comments, or concerns.

Accomplishments

This month the Wolves earned their Finding Your Way adventure loop. They learned how to use a compass, made a map of their home, and learned they should Never Eat Soggy Waffles. They had fun finding their way through the Adventure Woods at Awbury Arboretum.

Some of our Wolves also earned their Protect Yourself adventure loop. They learned who their trusted adults are, who is a safe stranger, and that it is okay to say no to an adult.
